

ANGELICA

Italian White Wine

Production area: ITALY

Alcohol content: 12,5% Vol.

Grapes: WHITE GRAPES BLEND

VINIFICATION

After the harvest, soft-crushed grapes and free-run must are processed at low temperatures. Then, fermentation takes place in tanks at controlled temperature of about 14/15°C. When fermentation is perfect the wine is stored at a constant low temperature before bottling.

TASTING NOTES

Colour: Light straw yellow with green hues.

Bouquet: Delicate with persistent bouquet of fresh fruit and flowers.

Taste: Fresh style with pleasant acidity and light fruity notes.

FOOD PAIRINGS

Ideal with poultry, fish and light meals.

Service Temperature: 8/10°C.
